**ON DEMAND WATER HEATERS**

**TOPIC OF BOARD OF REALTORS PROGRAM DECEMBER 6TH**

PARK CITY, UTAH – On-demand water heaters save energy and provide piping hot water. To find out if on demand hot water heaters are right for your home or office, the Park City Board of Realtors Environmental Issues Committee will host a program on Thursday, December 6th.

The free program is open to the public and will be held at 10 am at the Park City Board of Realtors office, 1889 Prospector Ave.

Larry Wilkins from Envirotherm will give a presentation explaining the capabilities of on-demand water heaters, also called “tankless” water heaters, non-chemical water treatment systems and solar applications. The public is invited to attend. For more information, call Recycle Utah at 649-9698.
