Company Bio/Introduction

The Recycle Utah Green Business Program does its best to promote each member business for its contribution to a sustainable Summit County. Please complete this section to be used for promotion.

Please briefly describe your company's history, and the goods and/or services it offers.

Please make a brief statement about your company's commitment to environmental sustainability, including your future goals.

Please provide any addition information you would like to share about your company (awards, recognition, etc.).

Utility Baseline

Choose the utilities you pay for: Electricity Gas Water Trash Recycling

Electricity: What is your annual (calendar year) electricity consumption in kilowatt hours? If this cannot be provided, what is your annual cost for electricity and your current cost p/kilowatt hour (Rocky Mountain Power bill)?

Natural Gas: What is your annual (calendar year) natural gas consumption? If this cannot be provided, what is your annual cost for natural gas, and your current cost p/decatherm (Questar bill)?

Water: What is your annual (calendar year) water consumption (CCF – hundred cubic feet)? What is your annual cost for water?

Trash & Recycling: What is your annual bill for trash? Recycling? How many pickups do you have each week of trash? Recycling? What do you feel you could start recycling that you currently are not?

Transportation: Do you have company vehicles? What vehicle type do you use with estimated mileage per gallon? Have you taken measures to reduce business vehicle usage? Does your business offer any employee incentives to reduce car commuting? Does your business involve air travel?

Purchasing: What measures have you taken to reduce resource consumption, including purchasing products made from recycled material?
Chemicals: Which of the following toxic chemicals do you use or store on site: <input type="checkbox"/> Chlorine <input type="checkbox"/> Ammonia <input type="checkbox"/> Oil-based paint <input type="checkbox"/> Corrosive cleaners <input type="checkbox"/> Pesticides <input type="checkbox"/> Other
Do you store more than 25 gallons of any of the items listed above? <input type="checkbox"/> Yes <input type="checkbox"/> No
What types of less toxic cleaning alternatives do you use (i.e. vinegar, baking soda, other commercially available green cleaning agents)?

Goals

Please set at least three significant, quantifiable goals that you will meet for the next 12 months. Goals should address land waste reduction/recycling improvement, water conservation, non-renewable energy conservation, or alternative transportation. Please indicate when each goal should be completed.

Goal #1: (start date _____) (Example: Expand recycling program to include most materials/reduce trash pick ups by 50%)		
Tasks/strategies to achieve goal:	By whom	By when
Goal #2: (start date _____) (Example: Perform lighting efficiency upgrade to LED for all lights)		
Tasks/strategies to achieve goal:	By whom	By when
Goal #3: (start date _____) (Example: create an employee incentive program for public transit and ride sharing, or any practices that will reduce car use)		
Tasks/strategies to achieve goal:	By whom	By when

Thank you for carefully considering your goals. Recycle Utah will check in with you every three months to see if you're on track. Please don't hesitate to contact us should any questions arise involving goal achievement.
